Course dates: May 23<sup>rd</sup> , 24<sup>th</sup>  
Course fee £ 180

# **POLARITY**

**VENUE: HINCKLEY**

**TUTOR: JAN BENHAM**

Balancing the polarity is the science of Life Energy in the Body. The Entire Body is Viewed as an Energy Field Currents or with specific patterns and circuits. These Body Currents and the Built originally Continue to Operate Until we leave IT. OCCURS when These Disease Currents short-circuit or get blocked by our emotions and stress, pollution, the world we live in etc. All body currents have an electric charge, either positive, negative or neutral. By understanding the relationships of the different currents and their charges, we can then proceed to balance them with our mind, body and spirit. This accomplished by the gentle contact of our hands, using love, positive thoughts and attitudes, manipulations, exercise and diet.

In this course you will learn about the five elements ether, air, fire, earth and water, how to activate and balance them with gentle manipulations. This course gives added understanding to why the body

works the way it does, why does one person respond to Thai yoga massage, whilst another person needs gentle lymphatic drainage massage or Qi drop therapy?

May 25<sup>th</sup> , 26<sup>th</sup>  
Course fee £ 180

**ESSENTIA™**

# COSMETICS

# AROMATHERAPY DIPLOMA

**Accredited by IFPA**

**Anatomy and Physiology needs to be acquired before Module 4**

The Associate Diploma in Clinical Aromatherapy Course consists of five in-house modules. Four are of 5 days each and the fifth module is 4 days, plus home study and practice relevant to each module. In addition a qualification in anatomy and physiology is required (there may be exemption from the A&P modules if the student already holds a relevant qualification). A First Aid certificate is

also required by the end of the course and is included in Module 5.

The minimum period for the completion of this course is 12 months, though dedicated students joining us to work in the factory or study continuously from overseas have completed the course with distinction in 6 months.

the time usually taken is 18 – 24 months. The maximum time recommended for completion is 48 months. To secure the practical and theoretical skills learned during the day, homework may be given to assist the students during the evenings of the course.

Comprehensive course notes and handouts are given out for each module. Treatment couches, towels, essential oils, carrier oils, and other aromatherapy products used during the course are provided. Textbooks, accommodation and food are not included in the fees.

## **SPICA Module 1 - £450**

Foundation level for all students

- Aromatherapy massage, its principles and benefits
- The properties and effects of 12 of the most popular essential oils
- Methods of extraction, storage and blending and the use of carrier oils
- History of aromatherapy and massage together with the philosophy of holistic healing

- Introduction to botany, plant cell function and photosynthesis

**Attendance on the foundation module is enough for those who wish only to use essential oils safely at home, to help their own family and to enhance their own life. 10 case studies and 5 essays should be completed before Module 2**

## **SPICA Module 2 - £450**

- Comprehensive appreciation of body analysis for assessment of clients
- Selecting and blending essential oils for a personal treatment plan
- Choosing appropriate oils, creams and lotions for the aromatherapy treatment of specific ailments and conditions
- Extended massage principles are demonstrated and practiced thoroughly
- Introduction to plant families and therapeutic and physical properties of essential oils and their pharmacological effects on the body
- Properties and effects of 15 essential oils are studied
- Introduction to hydrolats
- Hygiene, health and safety and professional practice management

**15 case studies and 5 essays should be completed before Module 3.**

**SPICA Module 3 - £450**

- Specific techniques in massage including foot reflex massage.
- Information on plant families and essential oils is expanded
- Organic chemistry and essential oil components awareness
- Toxicity, essential oil purity and safety
- 15 carrier oils are discussed in depth
- Allergy and substance sensitivity.
- The properties and effects of 15 essential oils are studied.

**10 case studies and 5 essays should be completed before Module 4.**

**SPICA Module 4 - £450**

- Differences between plant medicine and orthodox medicine
- Comprehensive study of common ailments, including those arising from care for the elderly, pregnancy and paediatrics, depression, special needs and massage with cancer patients
- Olfaction and its psychosomatic effects
- The properties and effects of 12 essential oils are studied.

- Techniques of neck and shoulder massage and relaxation are included in this module.

**5 case studies and written homework should be completed before Module 5.**

**SPICA Module 5 - £360**

- Rudiments of business and management procedure are taught and cover some of the aspects of starting up and running a successful clinic including the client/therapist relationship.
- First Aid is included
- The exam is on the final day, both practical and theory. Successful students will be entitled to wear academic dress appropriate to this level and append the letters SPICA to their name.

**The course is assessed by:**

- **2 and a half hour written examination**
- **2 and a half hour practical assessment**
- **200 hours of case studies**
- **Continuous assessment by homework and class work**

**RESIDENTIAL TRAINING**

**PROFESSIONAL COURSES FOR BUSY PEOPLE.**

**Aromatherapy is the wonderful art of using essential oils to bring a sense of well being to both giver and recipient. Here at the Shirley Price International College of Aromatherapy we offer courses from the most basic level of training upwards to qualification as a professional aromatherapist.**

**Join Madeleine Knapp-Hayes for the 5 day Shirley Price Aromatherapy for Health Professionals**

**Practical skills for the wards. This course is delivered privately in hospitals and hospices in the UK and overseas. Our public course is held in the UK in July 2011**

Clinical pathology - digestive tract problems in the hospital setting (obstipation, bowel cramps, etc.)  
Clinical pathology - urinary tract problems (bladder infection, etc.)

**Day 4:**  
Getting to know the last 5 essential oils in depth with clinical application possibilities  
Clinical pathology - the heart and circulation  
Clinical pathology - pain  
Clinical pathology - muscles and joints  
Clinical pathology - children's care  
Preparing oils for several indications

**Day 5**  
Clinical pathology - skin problems  
Preparing a skin care product  
Clinical pathology - mind and spirit  
Clinical pathology - palliative care and care for the dying.  
Practising the learnt, answering questions  
Closingday, certificates.

My aim in my teachings is to give students hands on practical principle knowledge which is easily implemented on a ward, with simple yet effective techniques. On most of the 20 essential oils there is a fair to good amount of research. Of course in every pathology lesson we look in a holistic way towards caring and healing. Evaluation forms from my students confirm their need to comply with their practical character and desire to have simple, but effective small interventions, supported by as much research and experience from the field of nursing as possible. This also gives them the tools to speak to doctors and managers

**Day 1:**  
Brief history of aromatherapy  
Distillation and other extraction methods with examples  
Brief encounter with chemical components in relation to clinical care use  
Clinical practical ways of using essential oils  
Science and research  
Precautions and toxicity, interactions and contra-indications  
Holistic view on body, mind and spirit  
Getting to know 5 essential oils in depth with clinical application possibilities  
Preparing an Aromatic Inhaler

**Day 2:**  
The ins and outs of carrier oils and macerates  
Getting to know the next 5 essential oils in depth with clinical application possibilities  
Preparing a skin oil for rubbing or massage  
Massage - the best techniques to use in the hospital setting  
Practising hand-, foot-, nek/shoulder massage etc.

**Day 3:**  
The ins and outs of working with water (compresses) and hydrosols  
Preparing hot compresses in practise, do's and don'ts  
Getting to know 5 more essential oils in depth with clinical application possibilities  
Clinical pathology - airway problems in the hospital setting (dyspnoea, pneumonia, MRSA, etc.)

## **SHIRLEY PRICE AROMATHERAPY DIPLOMA – PLANT BOTANY AND ESSENTIAL CHEMISTRY - 2 DAY COURSE**

We join leading aromachemistry author Elaine Zimmerman for Aromatherapy Chemistry in Switzerland and Hinckley.

**This course is usually held in July in the UK as part of the aromatherapy diploma Module 4/5**

[About Elaine Zimmerman](#)

Elaine is an expert in plant botany and her courses can be found at

[AIDA Aromatherapy International](#)

Elaine says "Usually I teach chemistry in a very playful way, i.e. I use Lego blocks as carbon atoms, I compare the molecules with jewelry and let the student mount chains of wooden beads, I even play a chemistry rap which I have had composed for this purpose. Means that the students learn with all their senses. And I am about to write a fifth book just about fragrant molecules and scientific studies showing how their benefit our health."

Course dates: 2 days to be arranged  
Cost: **£180**

## **BUSINESS STUDIES**

We join our business tutors Celia Johnston and Gill Mathias for a one day workshop on business skills.

**This course is usually held in July in the UK as part of the aromatherapy diploma Module 4/5**

Course dates: 1 days to be arranged  
Cost: **£90**

## **DISTANCE LEARNING**

**Tutor: Sara Gelzer**

The Distance Learning Course (DLC) in aromatherapy has been designed for aspiring students who are not able to attend the in-house training that is offered by SPICA.

[Facebook virtual classroom](#)

The learning is assessed by means of course notes, background reading of appropriate text books (many of which are included in the course pack although several other books may need to be purchased), and observation of massage techniques presented in video form.

The student will be required to complete each module, of which there are four, before proceeding to the next one, and will be required to submit written evidence to SPICA as directed.

A qualification in anatomy and physiology is also required - please contact us for a list of exemptions.

Upon completion of the course and assessment

session, the student will be awarded the SPICA

Distance Learning Diploma in Aromatherapy.

Students are advised to take between 1 year

minimum and 3 years maximum to complete the

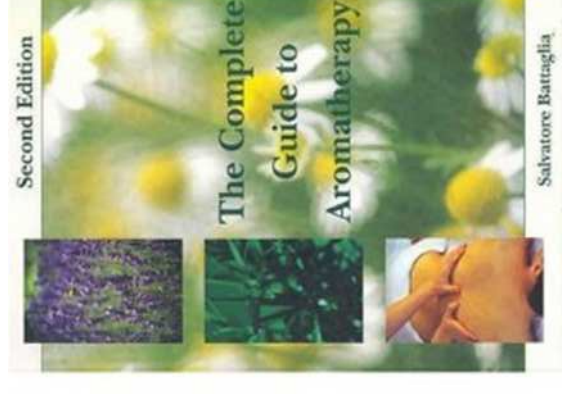

4 modules (5 if anatomy and physiology is required).

Whilst studying the DLC you are eligible to take

out "Student membership" of the International

Federation of Professional Aromatherapists (IFPA).

On completion of the course you are able to take a one week residential upgrade course to prepare you for the IFPA membership examination.

## INTRODUCTION

## THE FACTORY AND RESIDENTIAL COLLEGE VENUES
